DETAILED ACTION

In the amendment dated 01/09/06, Applicant amends independent claims 1, 14, 26, 30, and 38 to overcome the prior art. The limitations added to claims 1, 14, 26, and 30 are mostly allowable subject matter as indicated in the previous Office Action. However, the newly added limitation of claim 38 which recites “wherein the first seal, or the second seal, or the first seal and the second seal is not rubber” was neither originally neither disclosed in the original specification nor recited in any of the previously presented claims. Therefore, this newly added limitation is considered new mater.

Specification

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

The specification is objected to because of non-enablement. There is no disclosure of the first seal or the second seal or the first and the second seal is not rubber as recited in the amended claim 38.

Claim Rejections - 35 USC § 112

2. Claims 38-44, 51, and 52 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the enablement requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to enable one skilled in the art to which it pertains, or with which it is most nearly connected, to make and/or use the invention. Applicant fails to

Art Unit: 3745

disclose the seals are not rubbers as recited in claim 38. Claims 39-44, 51, and 52 are non-enabled as being dependent on claim 38.

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 38-44, 51, and 52 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

By reciting a negative limitation in claim 38, Applicant only excludes rubber as a material for the first seal, the second seal and the combination thereof. This means other materials that are known to men may or may not be good materials for the seals. Because of this, a person in the art would not know how to make and use of the invention without undue experimentation. Claims 39-44, 51, and 52 are indefinite as being dependent on claim 38.

Allowable Subject Matter

5. Claims 1-8, 10-24, 26-36, and 45-50 as amended are allowed.

Conclusion

6. Applicant's amendment, introducing new matter into claim 38, necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
